Your SUN/SAHO Negotiations Committee met this week in Regina for another series of productive sessions, where the parties were able to resolve some additional outstanding issues.

While the parties continue to have productive discussions, they are committed to addressing issues in a more timely and focused manner. In order to achieve this, a number of working groups, with equal representation, have been developed and will report back to the larger group regarding their progress at our next session.

The parties are scheduled to continue meeting throughout the month of October.
