Decision-Making Framework

We agree that in making decisions, the Board of Directors will consistently consider a whole-system view in the following:

1. Clarifying questions to ask:
 - a. How does the proposal or decision fit with the organizational vision, mission, strategic plan and authority?
 - b. What are the options and how will likely outcomes impact members, human resources, and financial resources?
 - c. What are the political and legal implications?
 - d. Will stakeholders be impacted?

2. Recommendations should include:
 - a. Research relevant to issue
 - b. Information on issue
 - c. Implementation plan and lead responsibilities
 - d. Communications and/or public relations plan
 - e. Monitoring and evaluation

We agree that decisions will be made with clear identification of accountabilities and responsibilities as well as timelines for implementation.

We agree that the Board of Directors will work together to design the process for meeting the periodic information and reporting needs of our organization.

We agree to ensure that board decisions will be made by consensus which means that each board member will actively support the Board of Director's decision by speaking with one voice.

We agree that debate and discussion of SUN matters takes place only at the Board of Directors table.
