

LIVING, LEARNING & GROWING YOUR PROFESSIONAL PRACTICE: RESOURCES

SUN believes access to continuing nursing education and professional practice growth is required to advance registered nursing practice in Saskatchewan. SUN will continue to advocate for safe, competent, ethical, and quality care within the healthcare system through collective bargaining agreements, advocacy, and leadership.

Expanding professional practice occurs with additional formal and/or informal learning opportunities to enhance knowledge, skills, abilities, critical thinking, and problem-solving for the highest quality, quantity, and appropriateness of healthcare services.

The following is an initial launching point of resources and organizations to assist with your professional growth and development.
